

## MITGI NEWS

### SHOP NEWS

Volume 1, Issue 4, October 2009

Things have been busy for us in the shop during the 3rd Quarter. Unlike last Quarter, where some machines were busy and others not, we have had to work weekends to keep up with the tooling orders that are coming in. We also are busy building inventory for the tools we have on stocking agreements with companies. This allows the best pricing and same day shipping for specialty tools we stock for customers. We have seen a substantial increase in sales for our stock MICRO END MILLS. This is exciting for us because this is something we have been promoting recently. We have also begun developing some End Mills for cutting Aluminum. We are working on some 3Fit. Aluminum cutting End Mills in a range of different sizes and hope to have them on our shelf and available for same day shipping in the next couple of months. We are working on a new Product Catalog showing the latest tools we have added to our product line. We hope this will be done and available before the end of the year .

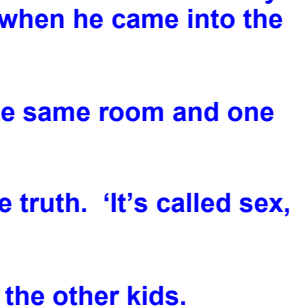

### Monthly Specials

Watch for our upcoming Monthly Specials. Every month we have one of our stock tools on sale. Listed below our the tools we will have on sale for the next 2 months.

October - 4Fit. Square Standard End Mills

November - 3Fit. Aluminum End Mills

### THREAD MILLS

We are working on a line of Thread Mills to have in Stock and available for same day shipping. We have a variety of Thread Mills on different shank sizes and with different thread pitches. Right now we are working on 3 different versions, NPT, NPTF and Unified. Once the line of Thread Mills is complete we will be offering these as coated or uncoated. To date, our Thread Mills have increased production at all test sites from 4% to 16% when competing against some of the best brands available. Our grinding technique and carbide grades have helped tool performance and our pricing is substantially less than the competition. Here at MITGI, we believe in providing the best value possible to our customers and our line of Thread Mills promises to carry on this tradition of excellence.

## GRANDMA'S DON'T KNOW EVERYTHING

**Little Tony was 7 years old and was staying with his grandmother for a few days. He'd been playing outside with the other kids for a while when he came into the house and asked her:**

**'Grandma, what's that called when two people sleep in the same room and one is on top of the other?'**

**She was a little taken back, but she decided to tell him the truth. 'It's called sex, darling.'**

**Little Tony said, 'OK,' and went back outside to play with the other kids.**

**A few minutes later he came back inside and said angrily, 'Grandma, it isn't called sex. It's called Bunk Beds. And Jimmy's mom wants to talk to you.'**

### Check out our newly updated website with online ordering available

We have recently updated our website. Take a look and see the new format along with an updated list of tools we have in stock. We also have 2009 pricing for all the tools we carry. We still have our specials page with our monthly stock tool we have on sale. New to the Website is an online ordering option we have added and also our bargain cave. The Bargain Cave will have over stock tools at a discounted price. The tools, which are different Form Tools, Mold Tools, End Mills, and Reamers just to mention a few, are over stock and have been discontinued by the original customer. Take a look and see if there is something that might fit your application. Just click on the logo below to take a look at the updated Website.

### Just Throw It In The River

**A Preacher was completing a temperance Sermon, and with great expression he said,**

**"If I had all the Beer in the World, I'd take it and throw it in the River."**

**With even greater emphasis he said, "And if I had all the Wine in the World, I'd take it and throw it in the River."**

**And then finally, he said, "And if I had all the Whiskey in the World, I'd take it and throw it in the River."**

**He sat down.**

**The Song Leader then stood very cautiously and announced with a smile, "For our closing song, let us sing Hymn # 365: "Shall We Gather At The River."**
